POINTS

NEEDLE SHARP
Ground Needle Point
Exceptional Sharpness

Needle Sharp™ is the very latest in premium point technology, the result of a unique point-grinding process, chemically sharpened to perfection.

needle cone

The result of a sharpening technique that gathers the metal fibers and squeezes them toward the center of the point. By compressing rather than cutting, the point is equal or superior in sharpness to the best available and incredibly stronger.

special point

A point hardened by forming, followed by chemical sharpening ensures permanent hook sharpness. Front and back reinforcement ribs guarantee the point's rigidity.

cone cut

The point that combines sharpness, structural stability and quality thanks to a conical tip, a triangular crest and a barb so fine that it assures, without force, a clean and perfect penetration beyond the barb.

fastgrip

The first point with 3 micro-barbs. The upper barb, placed close to the point, guarantees swift hook bite at the slightest solicitation. Two lower micro-barbs prevent the fish slipping off, even when the line is slack. As there is no tearing of the flesh, the removal of a Fastgrip® hook leaves no wound. Fastgrip®'s penetration power is 15% superior to that of an ordinary point.

cut point

The traditional hook point with excellent penetration capacity. This standard hook point is the most widely manufactured in the world.

STEELS

Vanadium

Vanadium® hooks owe their success to their lightness allied with their incredible resistance : up to 25% increased strength.

Vanadium® steel is perfect for any finesse-style hooks that require instant penetration.

Hi carbon

Carbon stabilizes iron during temperature changes. The higher the level of carbon, the stronger the steel.

Cannelle uses premium-quality high carbon steel to allow for a thinner hook with the highest quality point and durability.

STAINLESS-STEEL

With an **ultimate corrosion resistance** requiring no further coating, stainless steel is reserved for special professional and premium hook series.

X - Stainless Steel

COATINGS

An optimum level of corrosion resistance exists for each individual fishing application. Our coating preserve the unique sharpness, strength, shape and finish of our hooks for as long as you need them to last. The wide range of Cannelle coatings offers an efficient solution adapted to every fishing condition.

Coating PTFE

New smooth PTFE coating increases penetration speed by **50%**.

T - PTFE

EXTREME CONDITIONS

E - PermaSteel®

1000+ hours!

The anti-corrosion coating by excellence, PermaSteel® creates a 100% protective shield all over, yet maintains point sharpness.

Prevents signs of corrosion in saltwater for over 1000 hours.

SALTWATER

K - Black Nickel
 EB - Tin
 TR - Tin Red

We strive to achieve the perfect balance between coating thickness and point sharpness, to ensure optimum hook performance and resistance against corrosion

Tin and Tin Red coatings are highly recommended for all saltwater fishing applications, particularly those involving intense friction such as trolling or when in direct contact with stainless steel.

W - Black
 C - Carbon
 B - Blue
 R - Red

These coloured hooks receive a thin layer of unique varnish that covers the hook without affecting the sharpness of its point. The varnish creates a shield on Hi-Carbon and Vanadium® steel by covering the entire hook surface.

FRESHWATER

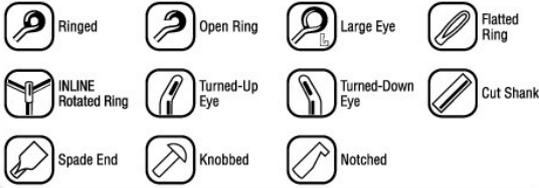

Z - Bronze
 D - Gold
 N - Nickel

This corrosion scale is founded on tests carried out in the most aggressive saltwater environment possible.

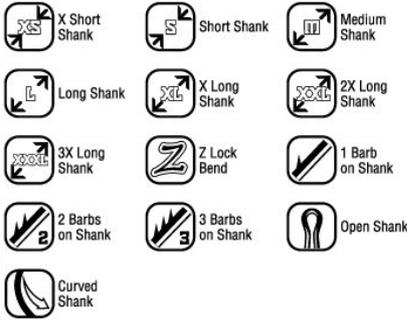

So in freshwater conditions, they surpass the standards expected.

CHOOSING THE RIGHT HOOK

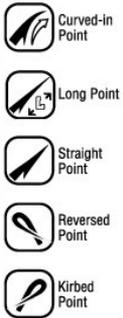

END

SHANK

POINT

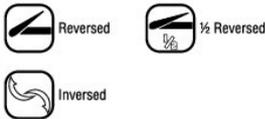

GAP/BEND

The gap and shape of the hook bend impacts catch-potential and resistance to opening.

PROFILE

FORGING

Forging the hook wire gives improved resistance to opening.

STEEL

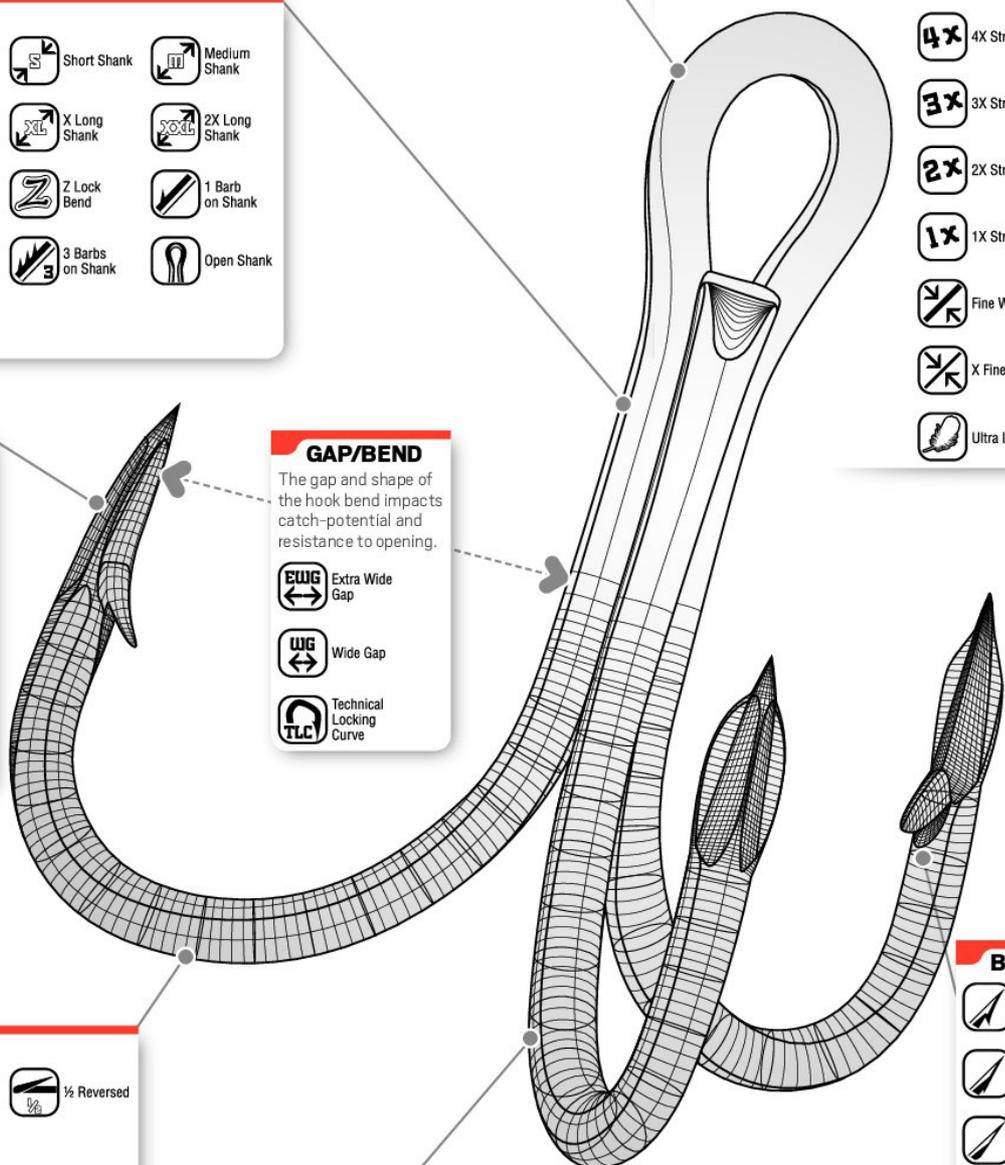

See page 4

STRENGTH

1X strong, 2X strong etc. is an indication of wire thickness. The higher the «X» number, the stronger the wire. As a general rule, the «X» number denotes the shift in sizes in relation to the wire thickness of an equivalent standard hook.

Therefore, a 1X strong treble has the same wire thickness as its standard equivalent one size bigger and a 2X strong treble has the same wire thickness as its standard equivalent two sizes bigger etc. The other hook dimensions are unchanged.

BARB

TREBLE HOOKS

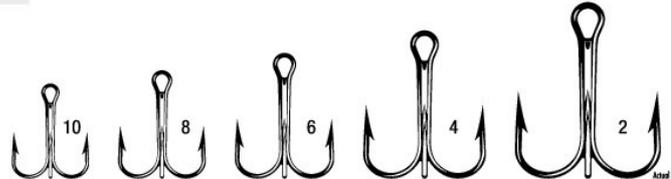

ROUND SHAPE

3004 *cut point* *Hi carbon steel*  Fine Wire

ROUND TREBLE

- Fine hook designed for precision fishing techniques
- Efficient shape with a high catch-potential
- Excellent model for trout and perch

 C - Carbon

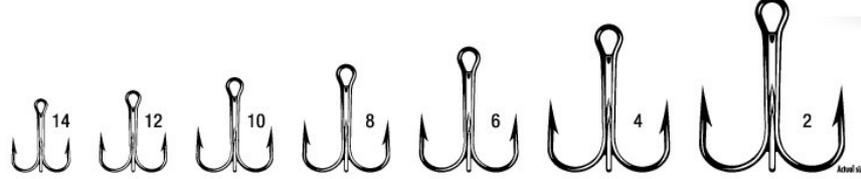

3203 *cut point* *Hi carbon steel*  Fine Wire

ROUND TREBLE

- Fine hook designed for precision fishing techniques
- Efficient shape with a high catch-potential
- Excellent model for trout and perch

 N - Nickel
 Z - Bronze

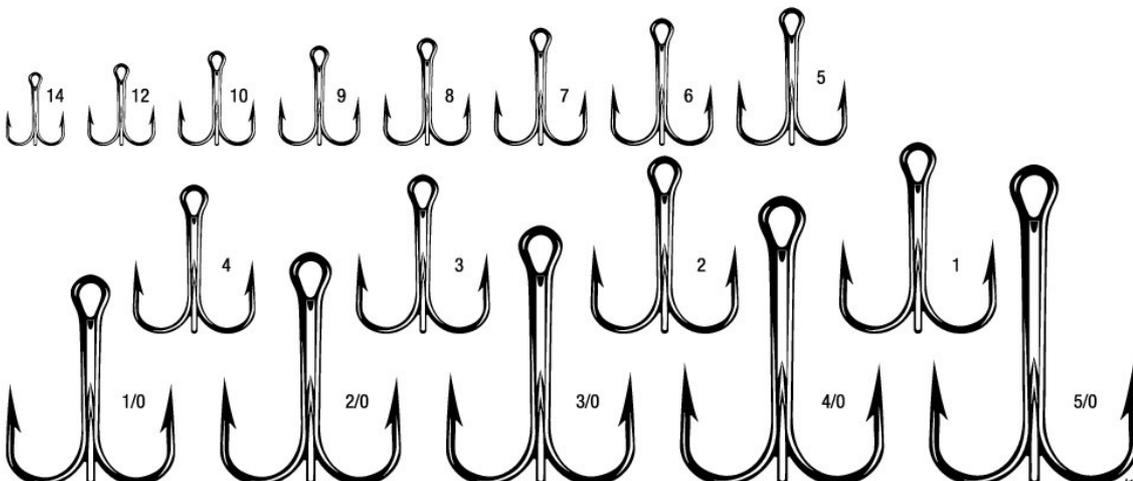

3205 *cut point* *Hi carbon steel*  Standard Wire

ROUND TREBLE

- The best-selling treble hook in the world
- For arming spoons and lures
- A very popular model for trout and predator fishing

 N - Nickel
 E - PermaSteel
 Z - Bronze

TREBLE HOOKS

ROUND SHAPE

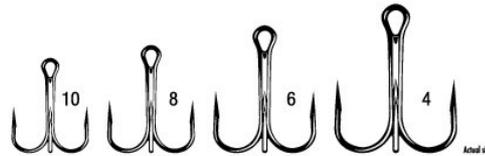

3605

BARBLESS ROUND TREBLE

Z - Bronze

- Barbless version of 3205
- A popular choice among today's anglers
- Recommended for catch-and-release fishing

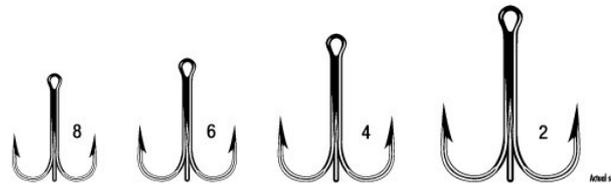

5000

ROUND TREBLE

K - Black Nickel

- Premium treble hook with high-quality Vanadium® steel
- Excellent penetration and resistance to opening
- A popular choice for fishing all predator species

TREBLE HOOKS

O'SHAUGHNESSY SHAPE

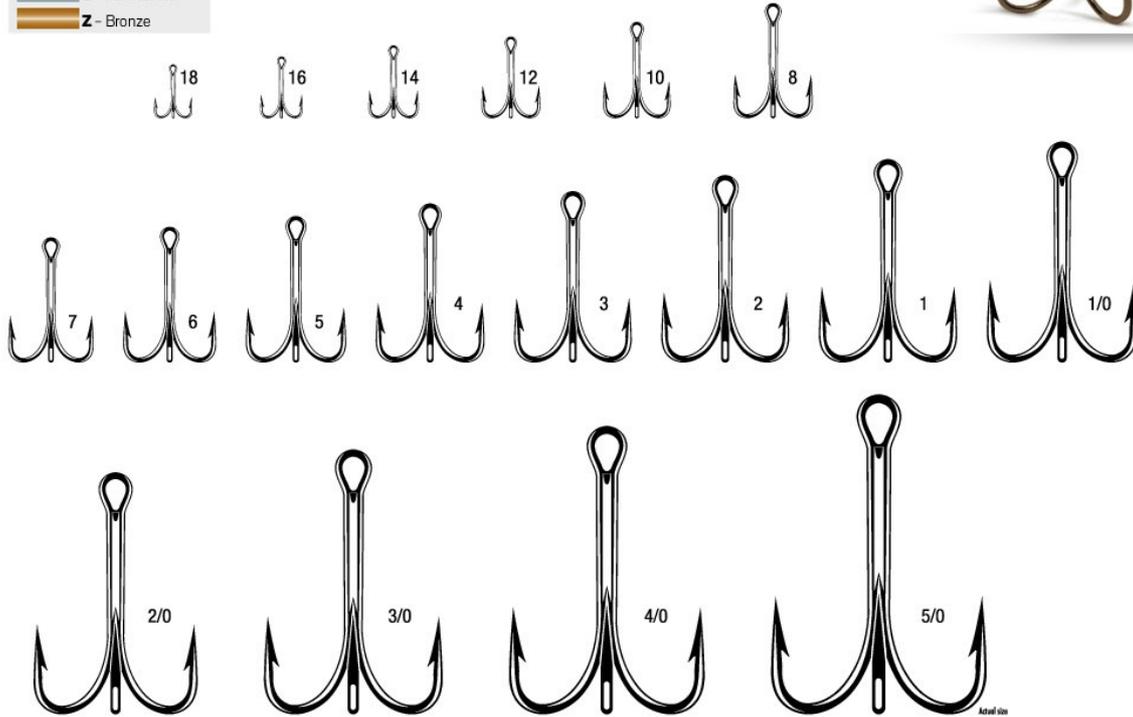

3210

O'SHAUGHNESSY

-  N - Nickel
-  E - Permalsteel
-  Z - Bronze

- The most popular hook in Europe for making rigs
- A large range of sizes for a multitude of applications
- An excellent all-purpose hook

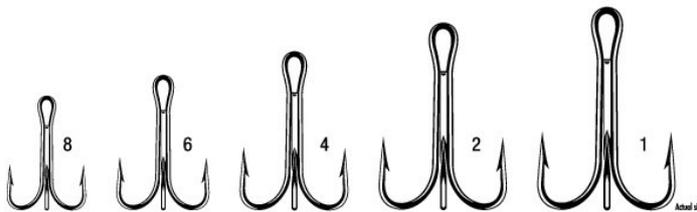

3212

O'SHAUGHNESSY

-  Z - Bronze

- Suitable for dead-bait rigs
- Open shank for easy assembly
- Ideal for perch, zander and pike

TREBLE HOOKS

O'SHAUGHNESSY SHAPE

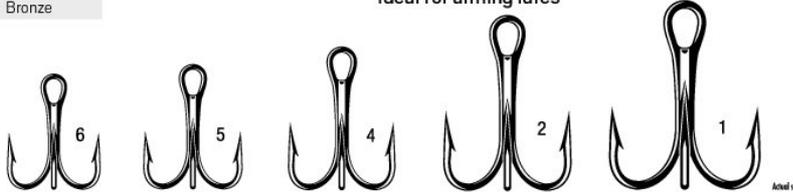

3223

O'SHAUGHNESSY

- A classic hook for freshwater predator fishing
- Strong short shank treble
- Ideal for arming lures

Z - Bronze

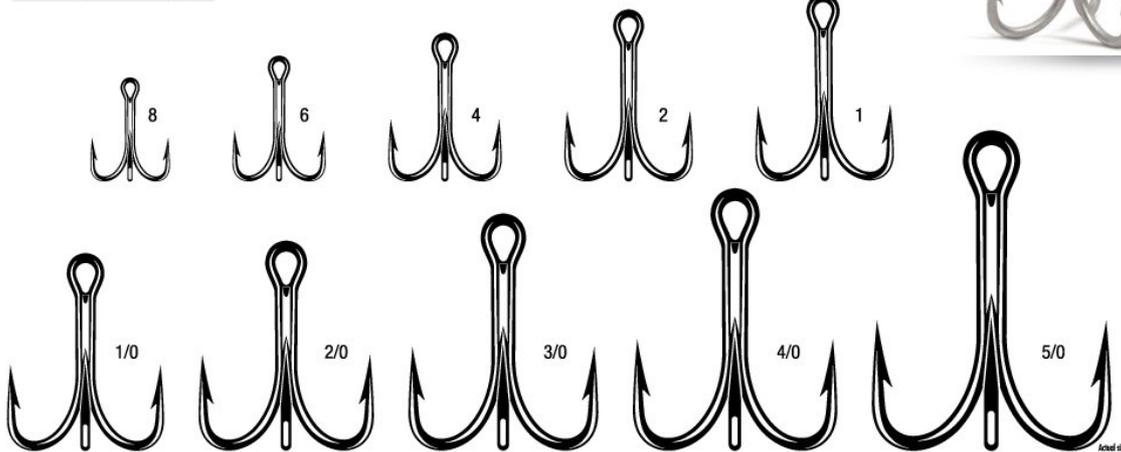

3225

O'SHAUGHNESSY

- A classic hook for tough species
- The bigger sizes are popular for saltwater fishing
- Short shank to avoid hook tangling

E - Permasteel

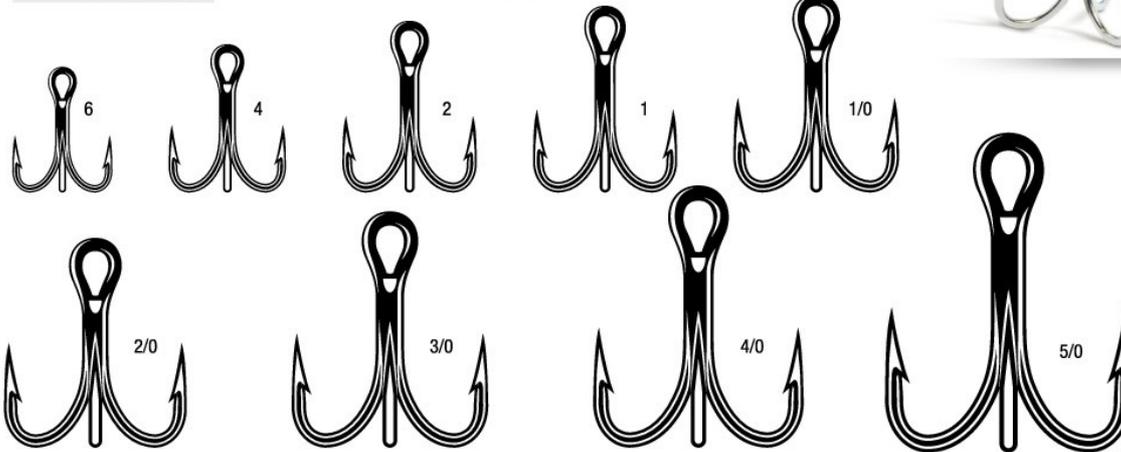

3527

FISHFIGHTER®

- Very high resistance to opening
- A complete range to arm all large-sized lures
- A popular choice for tropical fishing

EB - Bright Tin

TREBLE HOOKS

HYBRID SHAPE

5545

special point

Hi carbon steel

Forged

1X Strong

Short Shank

SPECIAL POINT TREBLE

 K - Black Nickel

- Reinforced model, perfect for arming lures
- Modern shape designed to increase catch-rate
- Special Point improves penetration in the fish's jaw

BARBARIAN SHAPE

cone cut

Hi carbon steel

Forged

Standard Wire

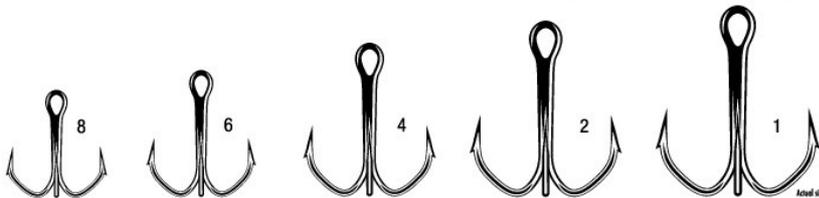

Technical Locking Curve

Outside Barb

BARBARIAN® TREBLE

 K - Black Nickel

- Barbarian® shape for maximum resistance to opening
- Catch is secured in the Technical Locking Curve
- Outside barbs improve penetration
- Ideal for all predators: perch, zander, trout and pike

DOUBLE HOOKS

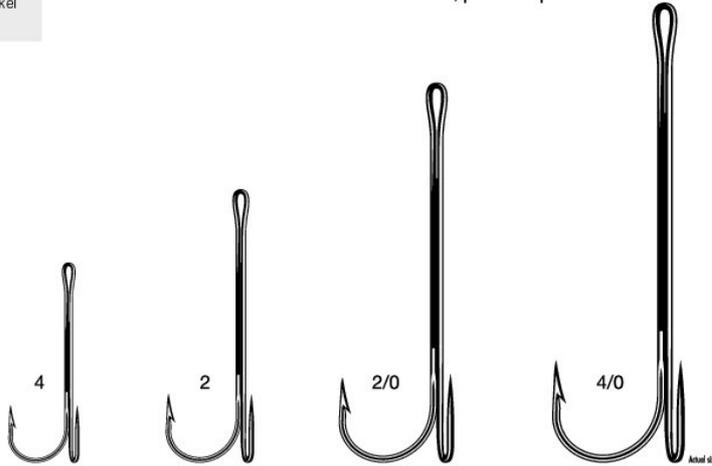

2020

DOUBLE HOOK

-  K - Black Nickel
-  R - Red

- Round shape with very sharp Cone Cut® points
- Designed for rigging soft-plastic lures
- Ideal for zander, pike and perch

2025

DOUBLE PARROT BEAK

-  Z - Bronze

- Parrot-beak shape
- Perfect for dead bait fishing
- Cradles the sides of the bait

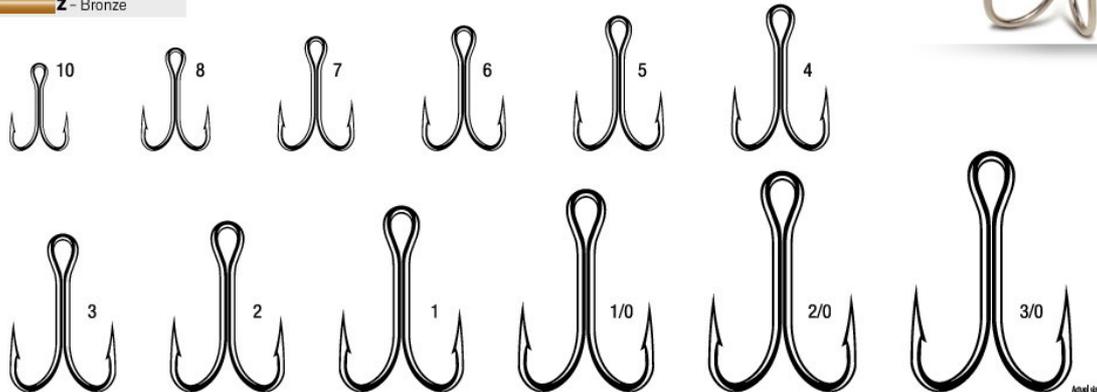

2205

LIMERICK DOUBLE

-  N - Nickel
-  Z - Bronze

- A classic hook for tying rigs
- Two 90° branches
- Ideal for dead-bait fishing and to arm lures

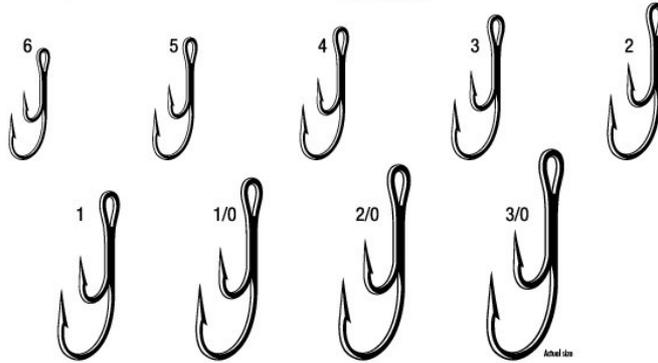

2236

RYDER DOUBLE

Z - Bronze

- Ideal for pike & zander fishing
- A popular choice for live bait rigs
- The big hook should be mounted on the dorsal fin

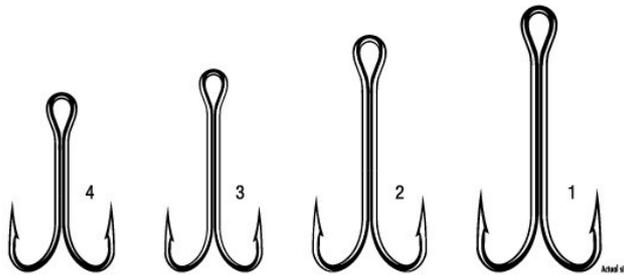

2918

DOUBLE LIMERICK

Z - Bronze

- An ideal hook for tying rigs
- Two 90° branches
- Ideal for dead-bait fishing & soft lures

SINGLE HOOKS FOR LURES

5239

NEEDLE SHARP

Hi carbon steel

Large Eye

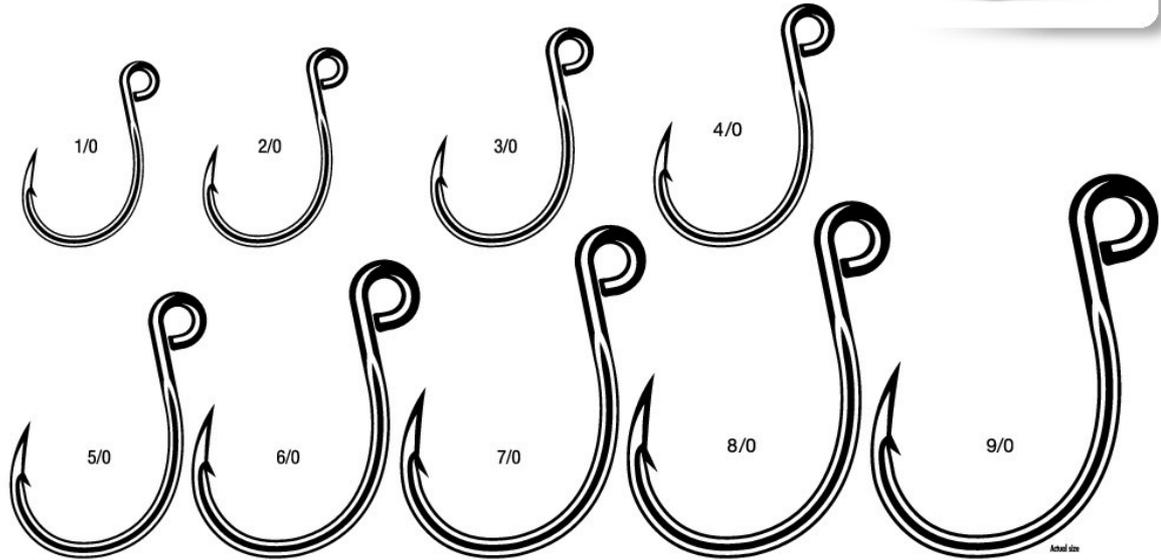

Forged

EWG Extra Wide Gap

INLINE SINGLE HOOK

EB - Bright Tin

- Single hook to use in place of a treble hook on lures
- Increasingly popular trend for saltwater specimen fishing
- Extra wide gap - improves catch rate

JIG HOOKS

1362

cut point

Hi carbon steel

Flat Eye Jig

Forged

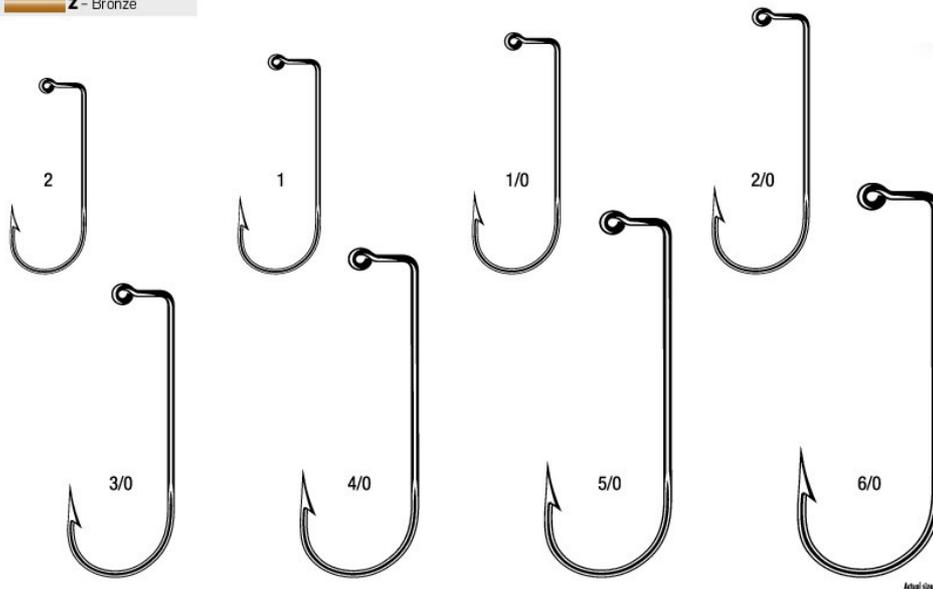

Long Shank

ROUND BEND JIG

N - Nickel
Z - Bronze

- Forged hook with a long shank
- Recommended for black-bass fishing
- Ideal with soft plastics, such as worms & creature baits

90° bend

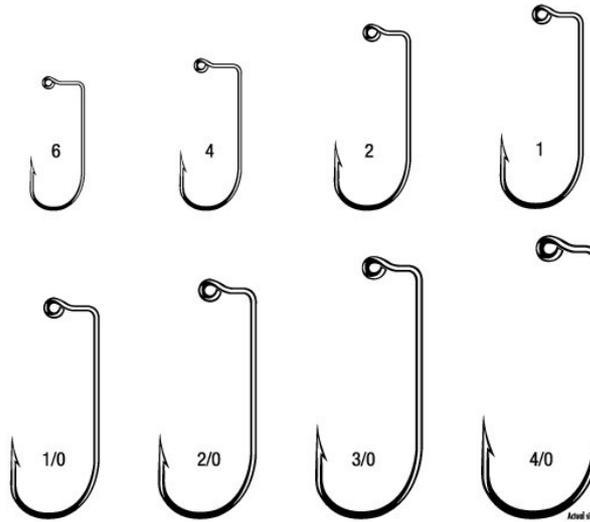

1367

ROUND BEND JIG

-  N - Nickel
-  Z - Bronze

- Freshwater Aberdeen-shape jig hook with 90° bend
- Ideal for round jig heads
- A bestseller worldwide!

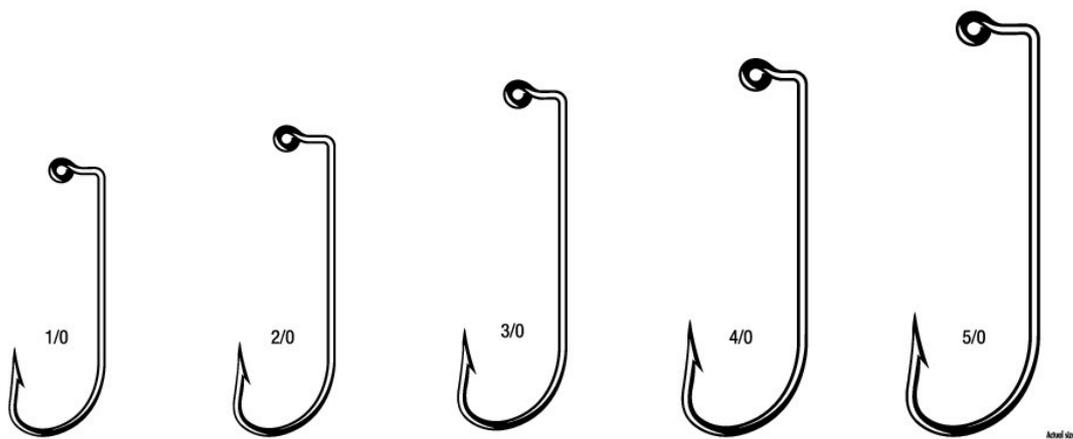

1368

O'SHAUGHNESSY JIG

-  Z - Bronze

- Long-shank jig hook with a 90° bend
- Ideal for jig heads for vertical fishing
- Reinforced wire for saltwater fishing

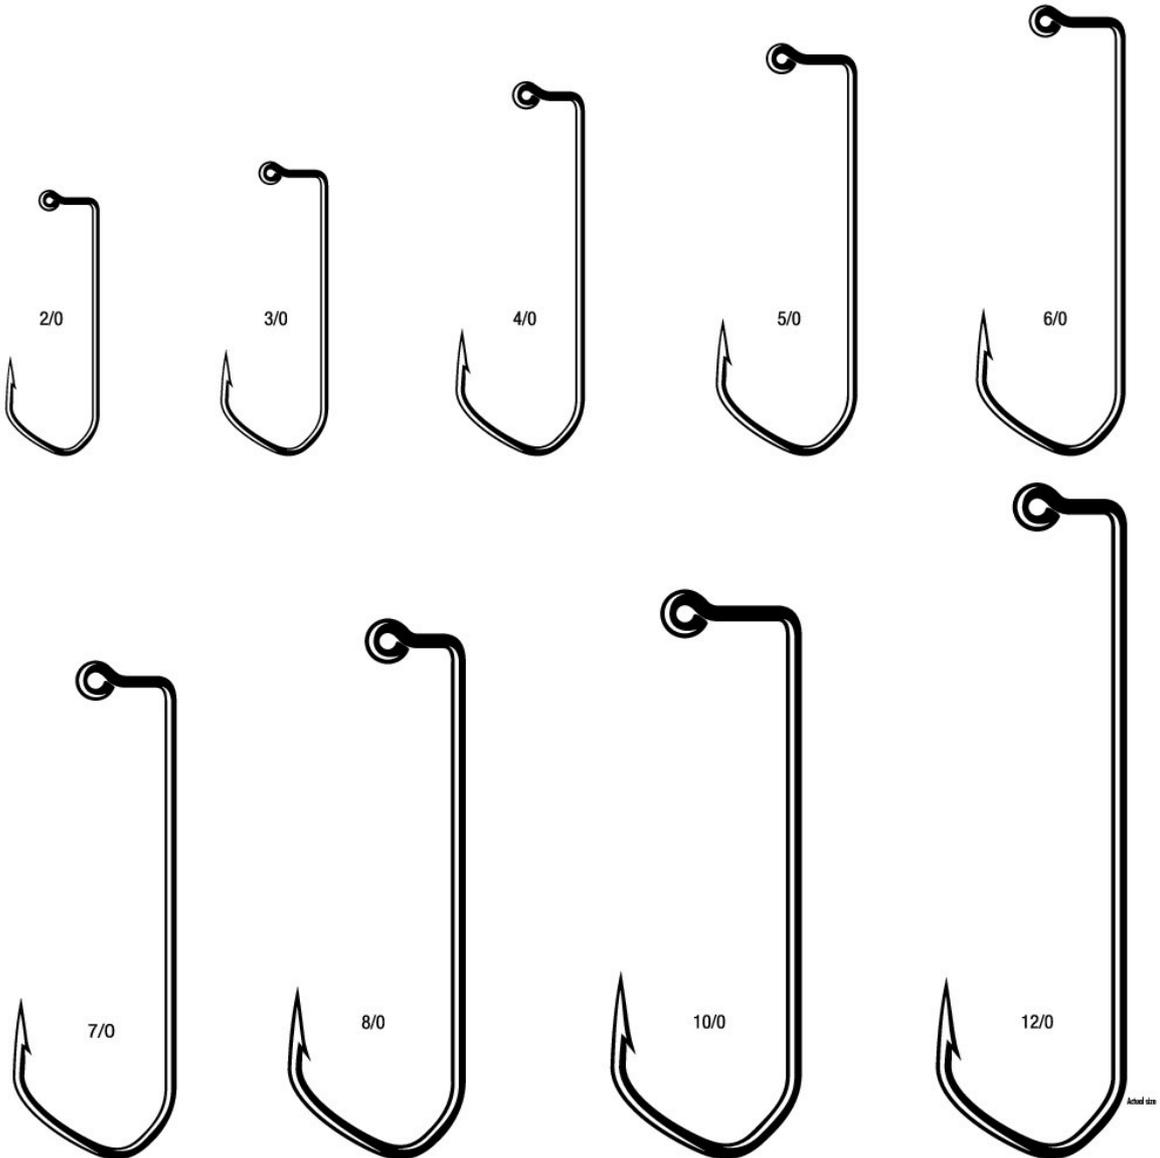

5150

BARBARIAN® JIG HOOK

 K - Black Nickel

- Exclusive Barbarian® shape hook
- Robust and sharp model
- Ideal for fishing large predators in strong river currents

ALLROUND SINGLE HOOKS

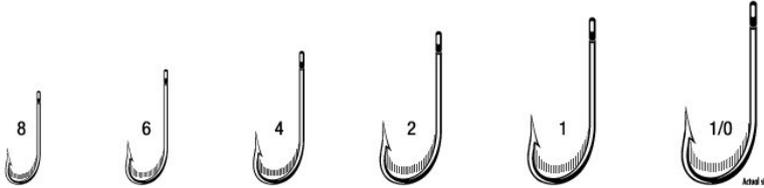

1065

KIRBY

Z - Bronze

- A Kirby reversed hook with a ring
- Perfect for eel and predator fishing
- Suitable for dead bait fishing

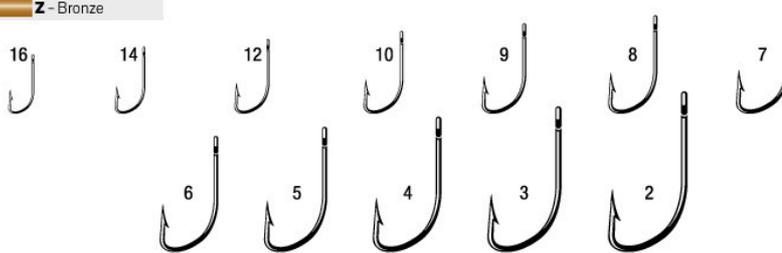

1213

CRYSTAL

N - Nickel
Z - Bronze

- All purpose crystal-shaped hook with a ring
- Ideal for ice-fishing

1435

NATIONAL TROUT

B - Blue

- Forged, reversed hook
- A versatile model in a wide range of sizes
- Can be used for a multitude of fishing techniques

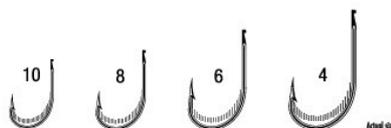

1457

NATIONAL TROUT

B - Blue

- Versatile hook with a relatively wide shank
- Spade end model with a round-bend shape
- Perfect for using larger-size bait

ALLROUND SINGLE HOOKS

1532

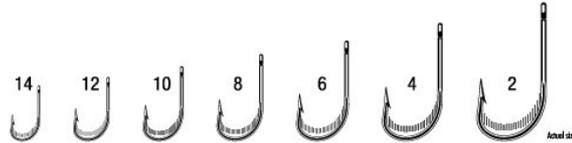

NATIONAL ROUND

- With a ring and relatively fine wire
- Very popular for carp fishing in the UK

Z - Bronze

1535

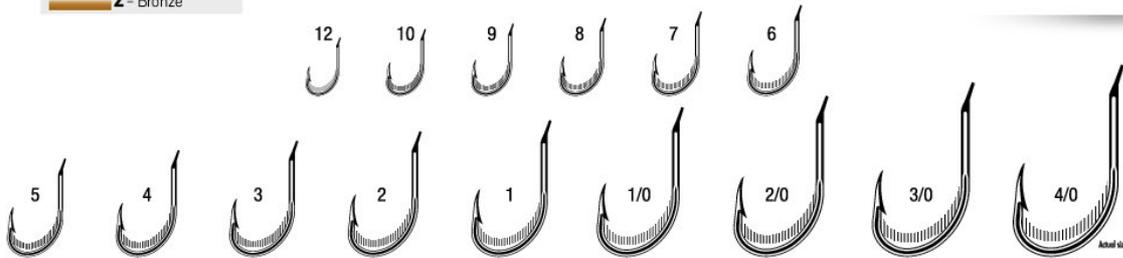

FAULTLESS

- Spade end model
- Forged and reversed
- A classic for sea-bass fishing using crab or fish bait

N - Nickel
E - Perma steel
Z - Bronze

1540

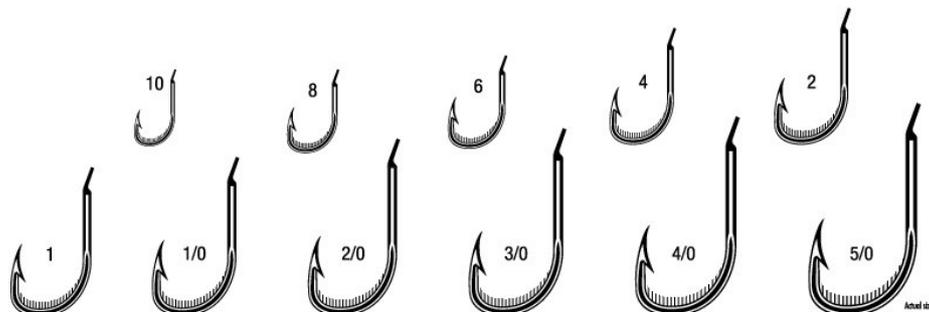

FAULTLESS

- Very popular with longliners
- Forged and reversed hook
- Strong and sharp

N - Nickel
E - Perma steel
Z - Bronze

ALLROUND SINGLE HOOKS

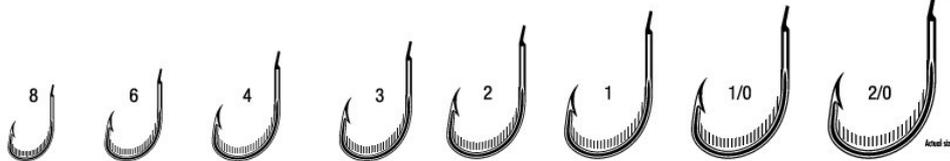

1555

NATIONAL

K - Black Nickel

- Single hook with a spade end
- Premium black-nickel coating
- For fishing with hefty bait such as seed bait

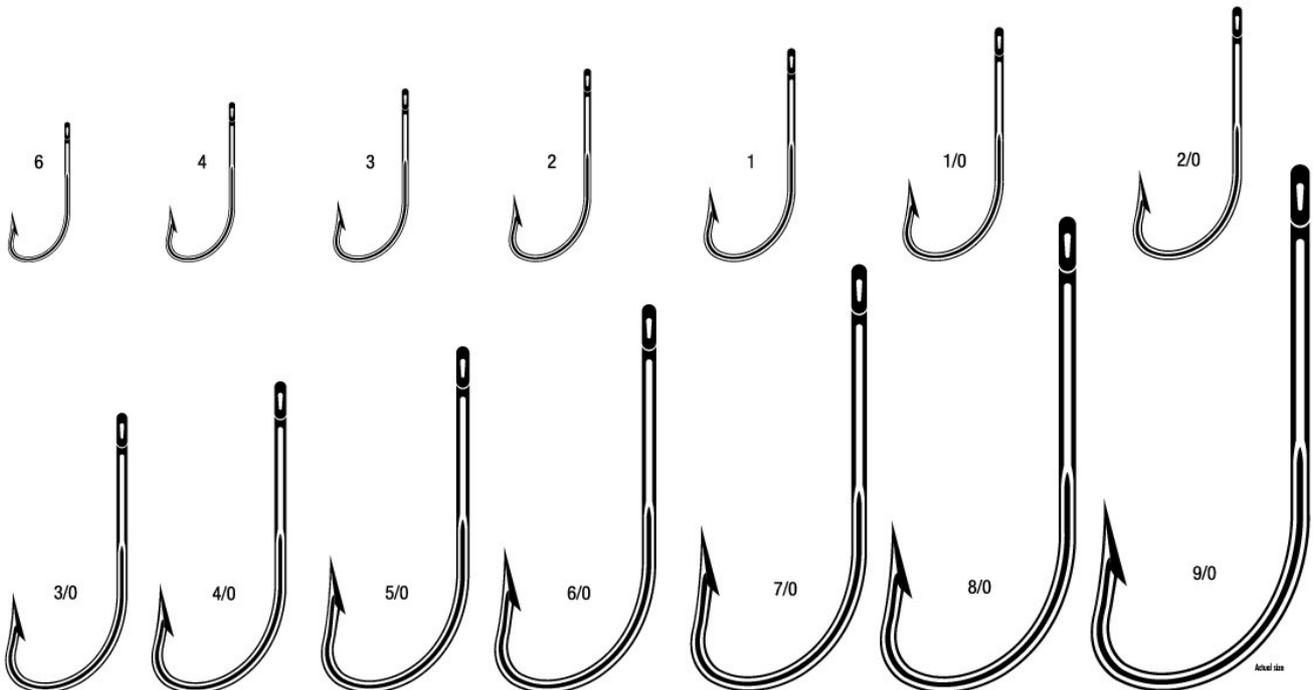

1560

O'SHAUGHNESSY

N - Nickel
E - PermaSteel

- Designed for use on large spoons
- Highly popular on the US West Coast

ALLROUND SINGLE HOOKS

1610

CRYSTAL

Z - Bronze

- All-purpose hook with a ring
- Easy to rig
- A versatile hook for river angling

FLY HOOKS

DOUBLE

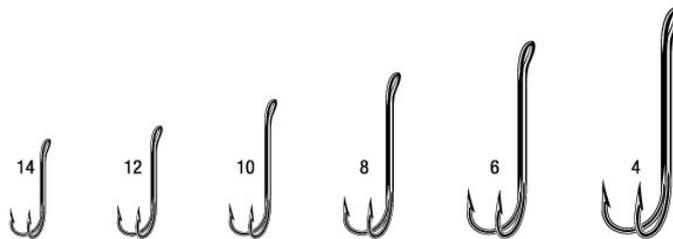

2008

DOUBLE FLY HOOK

W - Black

- Forged double hook
- Perfect for tying flies and streamers
- Ideal for pike, trout, sea trout and salmon

SINGLE

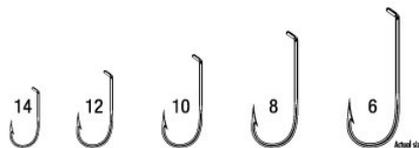

1481

NATIONAL FLY

Z - Bronze

- Forged, light, fine-wire hook
- Turned-down eye
- A highly versatile model

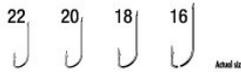

MATCH/POLE

1209
CRYSTAL

cut point *Hi carbon steel* Spade End X Fine Wire X Long Shank

- Fine wire and long shank hook
- An extremely versatile hook
- Perfect in rivers, canals and ponds

B - Blue

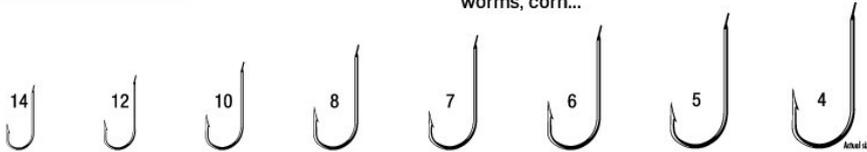

1336
ROUND

cut point *Hi carbon steel* Spade End Fine Wire Long Shank

- Hook designed for catching bigger fish at bottom
- Larger sizes can be used for carp
- Use a clump of pinkies, maggots, compost worms, corn...

N - Nickel
 Z - Bronze

1403
SPECIAL MATCH

cut point *Hi carbon steel* Spade End Forged X Fine Wire X Long Shank

- Special Cannelle hook designed for match fishing
- X-fine wire and X-long shank

K - Black Nickel

1505
CRYSTAL

cut point *Hi carbon steel* Spade End Forged

- All-purpose, resistant shape
- For fishing roach, bream and tench in rivers

N - Nickel
 D - Gold
 Z - Bronze

MATCH/POLE

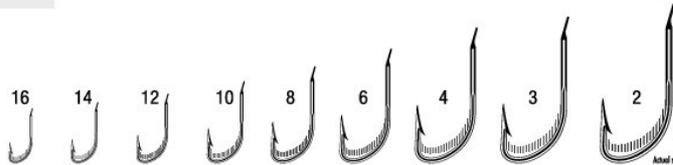

1508

CRYSTAL

N - Nickel

- Same shape as 1505 (see previous page) but reversed
- A classic shape for bottom river fishing

CARP

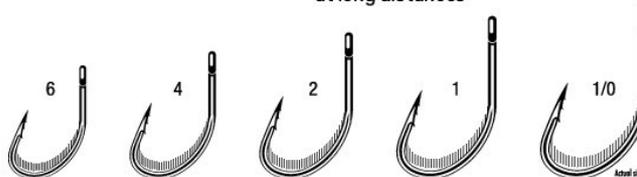

4106

FASTGRIP® CARP AND SEA

K - Black Nickel

- Inward-point
- A very sturdy model
- Fastgrip® point for auto-striking at long distances

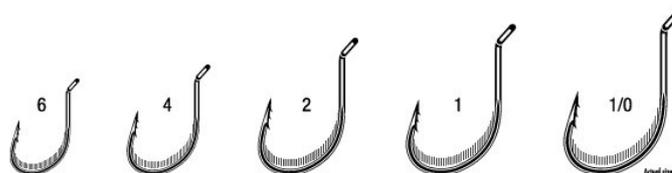

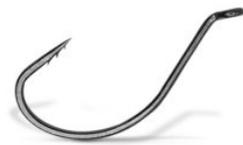

4109

FASTGRIP® LIVE BAIT OCTOPUS

K - Black Nickel

- A versatile predator hook
- Premium Vanadium® steel
- Auto-striking Fastgrip® point, also reduces hook-spitting

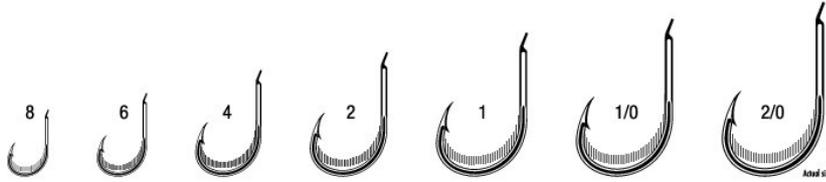

CARP

5010 *needle cone* *medium steel* Spade End Reversed Forged 1X Strong

CARP

— K - Black Nickel

- Strong hook with a spade end
- Sharp and solid Needle Cone point
- For specimen fishing with boilies

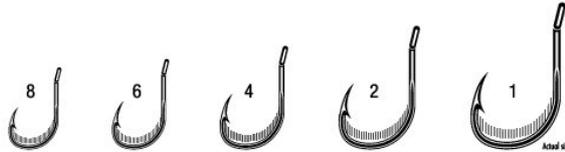

5133 *needle cone* *medium steel* Turned-Up Eye Reversed Forged

SPECIAL CARP

— K - Black Nickel

- Forged and reversed hook with a ring
- A popular model for fishing with boilies
- Extremely solid and sharp inward-point

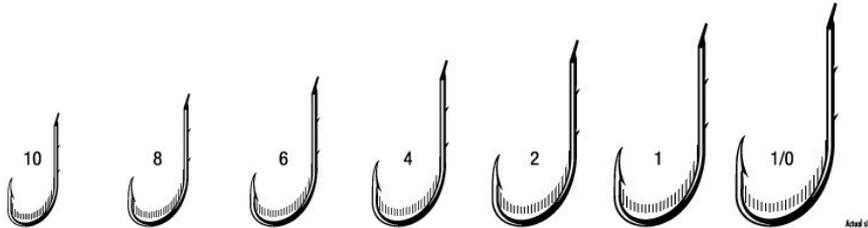

BAITHOLDER

1271 *cut point* *Hi carbon steel* Spade End Reversed Curved-in Point 2 Barbs on Shank

BAITHOLDER

— N - Nickel
— Z - Bronze

- Double barb on the shank
- Helps secure the bait firmly on the hook
- Popular for worm-fishing techniques

BAITHOLDER

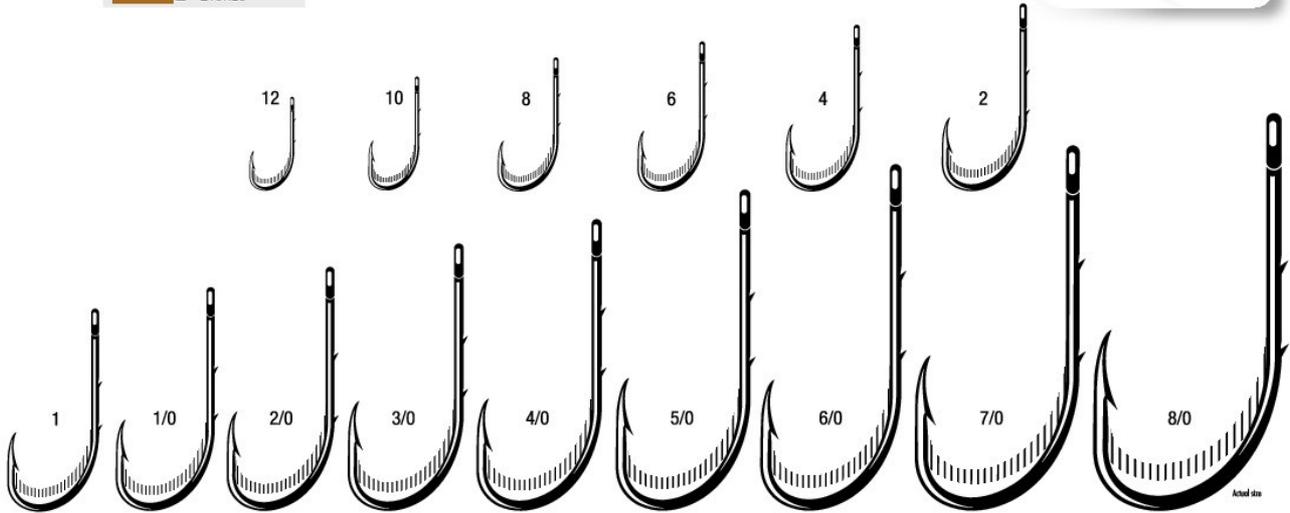

1272

BAITHOLDER

- N - Nickel
- E - Permasteel
- Z - Bronze

- Versatile model for all worm fishing techniques
- 2 micro-barbs on shank hold bait firmly in place
- Widely used for cod

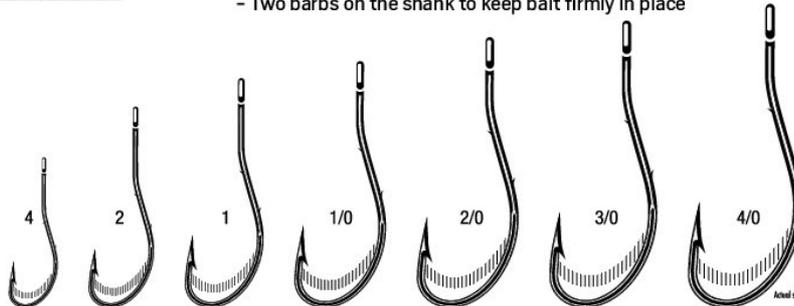

5104

WORM HOOK

- K - Black Nickel

- A strong model for big salmon-trout
- Designed for fishing with large worms such as red-worms
- Two barbs on the shank to keep bait firmly in place

SOFTPLASTIC

1119 *special point* *Vanadium steel* Turned-Up Eye Forged Fine Wire Technical Locking Curve

DROP SHOT

— K - Black Nickel

- Premium Special Point hook for extreme sharpness
- Ultra-light to ensure optimal lure swimming action
- Barbarian® bend for increased resistance to opening

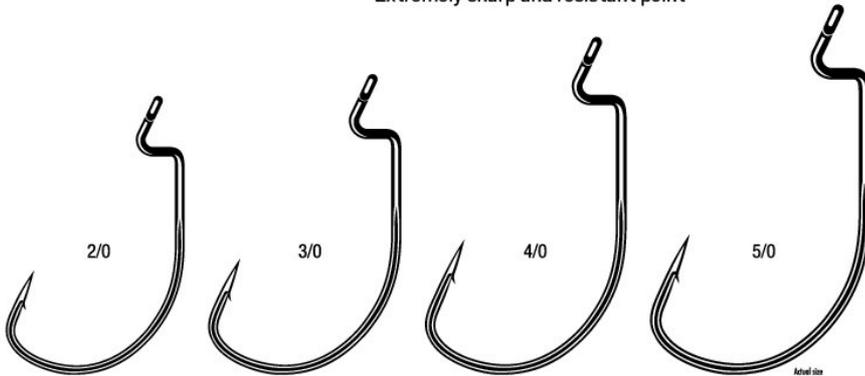

1317 *needle cone* *Hi carbon steel* Ringed Forged 3X Strong Extra Wide Gap Z Lock Bend

TEXAN

— K - Black Nickel

- Worm hook with 3X reinforced wire
- To entice predators from heavily-covered areas
- Extremely sharp and resistant point

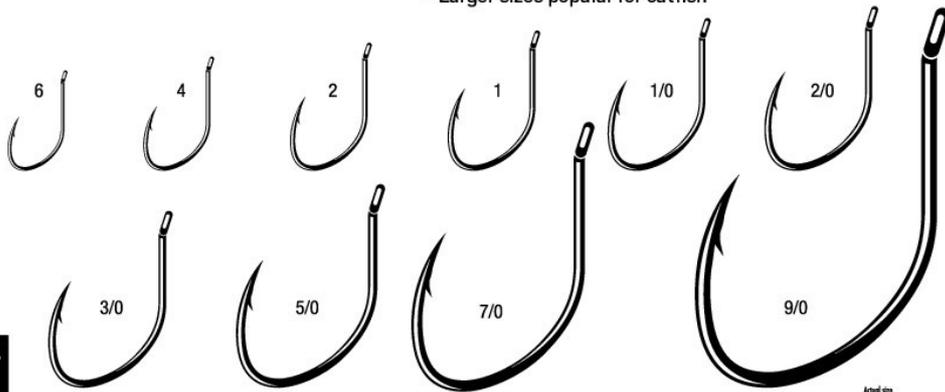

5050 *needle cone* *Vanadium steel* Turned-Up Eye

SURE SET WALLEYE

— K - Black Nickel

- Inward point
- Ideal for rigging a jointed jig head
- Also suitable for live-bait and drop-shot fishing
- Larger sizes popular for catfish

SOFTPLASTIC

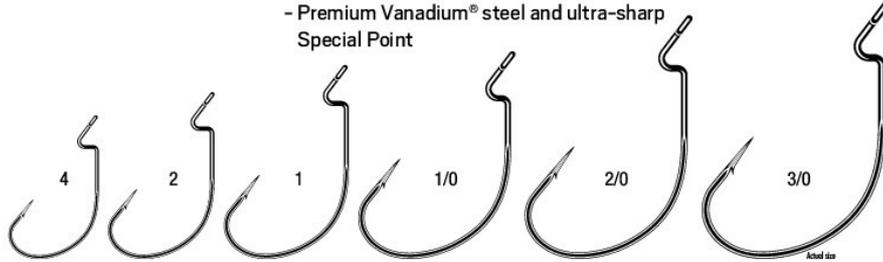

5310

SPECIAL POINT SUPER LIGHT SLUG

K - Black Nickel

- One of the lightest worm hooks on the market
- Extra wide gap to make rigging soft plastic lures easier
- Premium Vanadium® steel and ultra-sharp Special Point

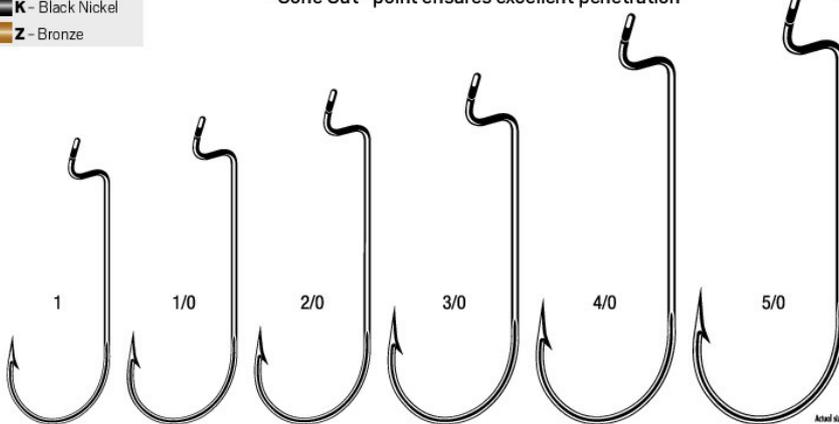

5313

WORM HOOK

K - Black Nickel
Z - Bronze

- A best-selling hook for long thin lures
- Premium, highly technical design
- Cone Cut® point ensures excellent penetration

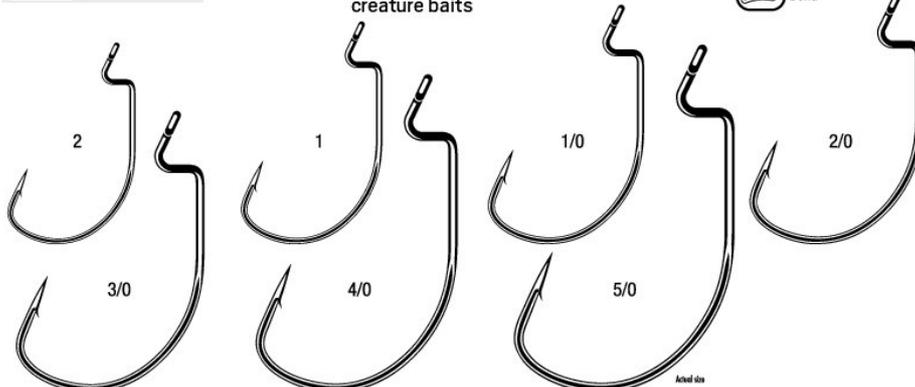

5316

SPECIAL RIG'N HOOK

K - Black Nickel

- Forged worm hook with a ring
- An extremely versatile model
- Ideal with slugs, worms, finesse lures and creature baits

CATFISH

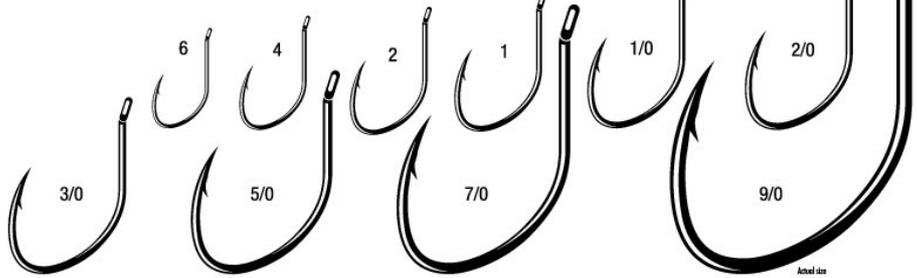

5050

SURE SET WALLEYE

K - Black Nickel

- Inward point
- Ideal for rigging a jointed jig head
- Also suitable for live-bait and drop-shot fishing
- Larger sizes popular for catfish

LIVEBAIT

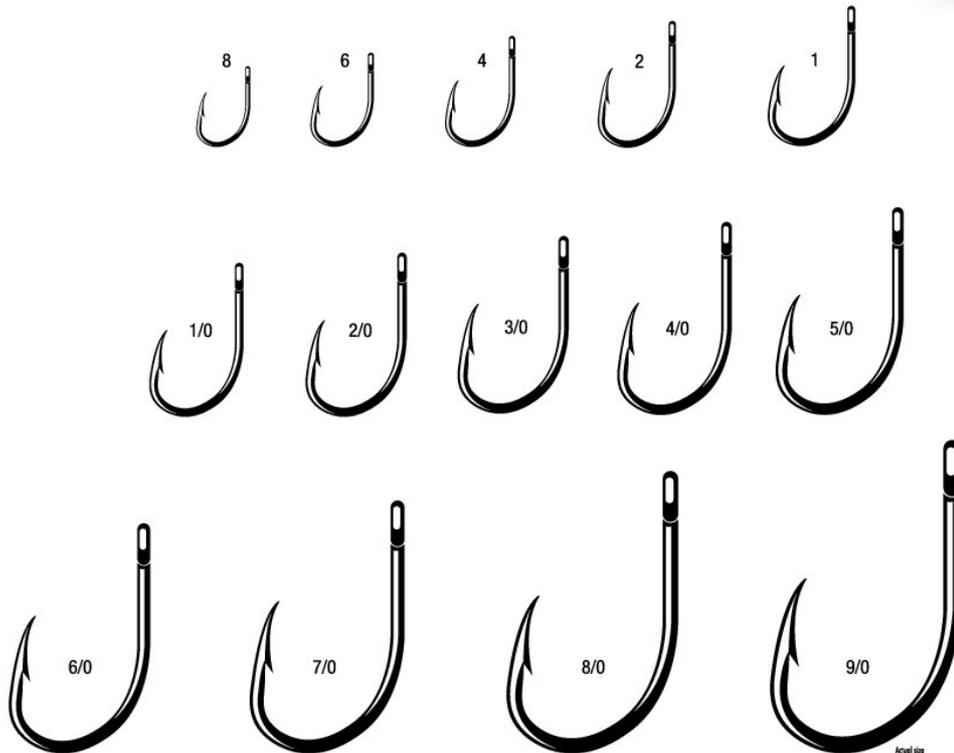

1460

LIVE BAIT

Z - Bronze

- Very strong short shank hook
- A popular model for live bait fishing
- Ideal when wrecking for cod and pollack

LIVEBAIT

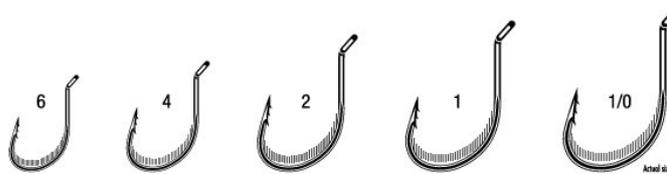

4109

FASTGRIP® LIVE BAIT OCTOPUS

K - Black Nickel

- A versatile predator hook
- Premium Vanadium® steel
- Auto-striking Fastgrip® point, also reduces hook-spitting

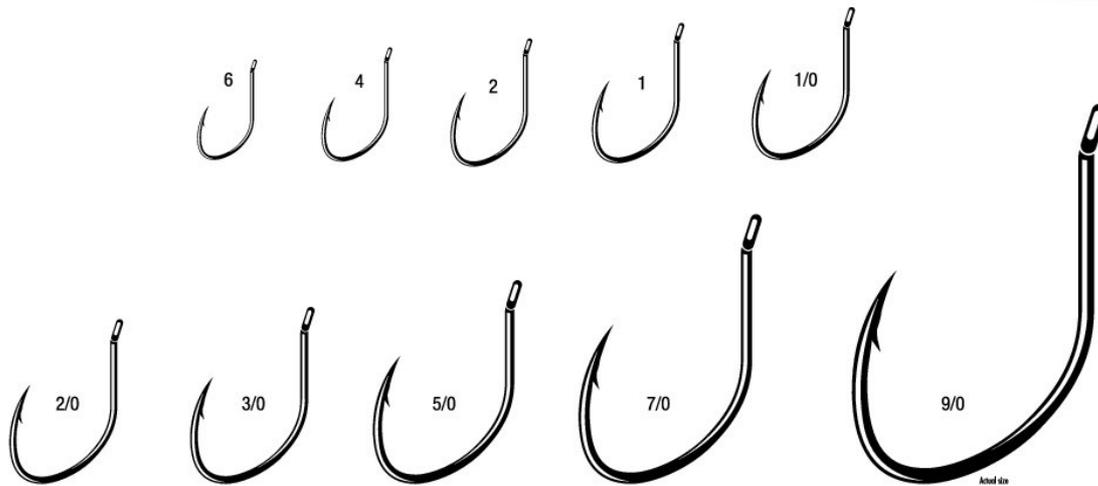

5050

SURE SET WALLEYE

K - Black Nickel

- Inward point
- Ideal for rigging a jointed jig head
- Also suitable for live-bait and drop-shot fishing
- Larger sizes popular for catfish

LIVEBAIT

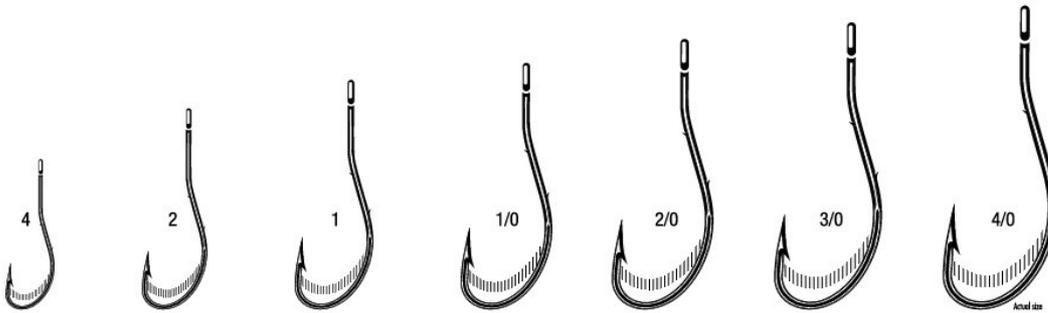

5104

WORM HOOK

K - Black Nickel

- A strong model for big salmon-trout
- Designed for fishing with large worms such as red-worms
- Two barbs on the shank to keep bait firmly in place

SALTWATER SPORT SINGLE HOOKS

INSHORE / SURFCASTING

1272 *cut point* *Hi carbon steel* Ringed Reversed Curved-in Point 2 Barbs on Shank

BAITHOLDER

N - Nickel
E - PermaSteel

- Versatile model for all worm fishing techniques
- 2 micro-barbs on shank hold bait firmly in place
- Widely used for cod

1325 *cut point* *Hi carbon steel* Ringed X Long Shank

ABERDEEN

B - Blue

- Reinforced long-shank hook
- A classic shape to catch good-sized fish
- Bait with razor-shell, cuttlefish, etc.

INSHORE / SURFCASTING

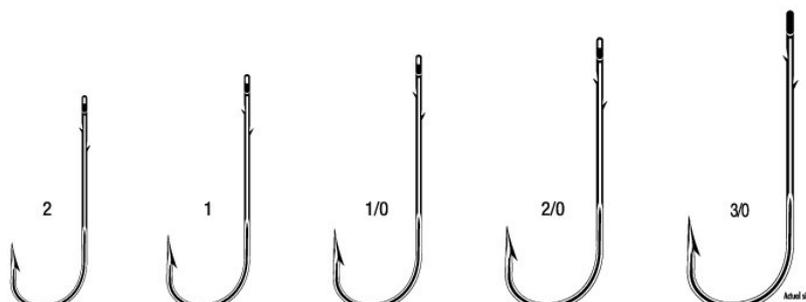

1327

ABERDEEN WORM

N - Nickel

- Classic shape for surfcasting using worms
- 2 micro-barbs on shank hold bait firmly in place
- A relatively strong hook

LIVE BAIT

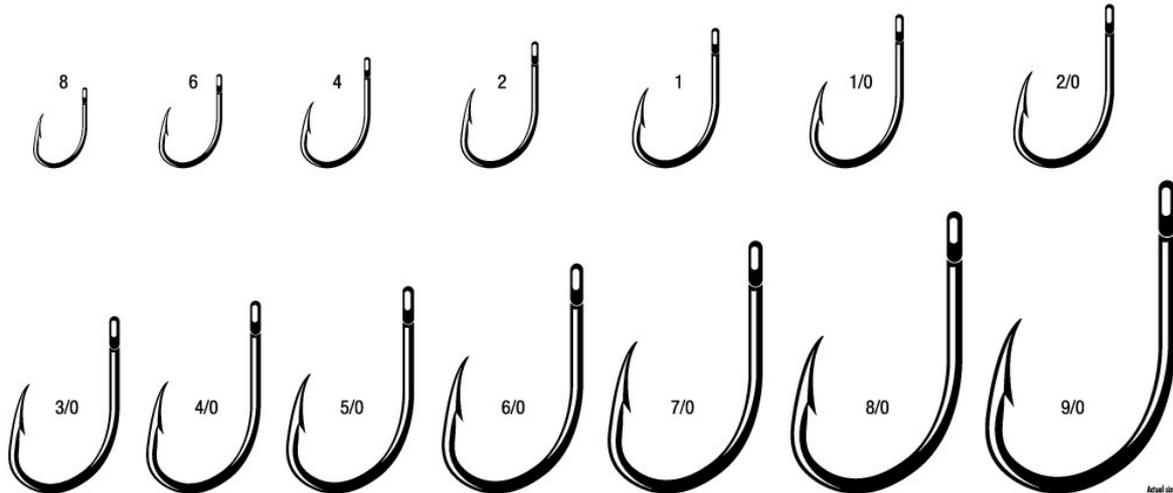

1460

LIVE BAIT

Z - Bronze

- Very strong short shank hook
- A popular model for live bait fishing
- Ideal when wrecking for cod and pollack

CIRCLE

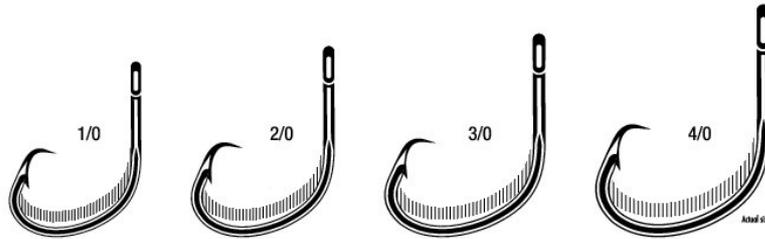

5382

SPORT CIRCLE 3X STRONG

- E - PermaSteel
- K - Black Nickel

- Forged, ringed and reversed hook
- Ideal when wrecking for cod and pollack
- Freshwater use for catfish using big live baits

BIG GAME

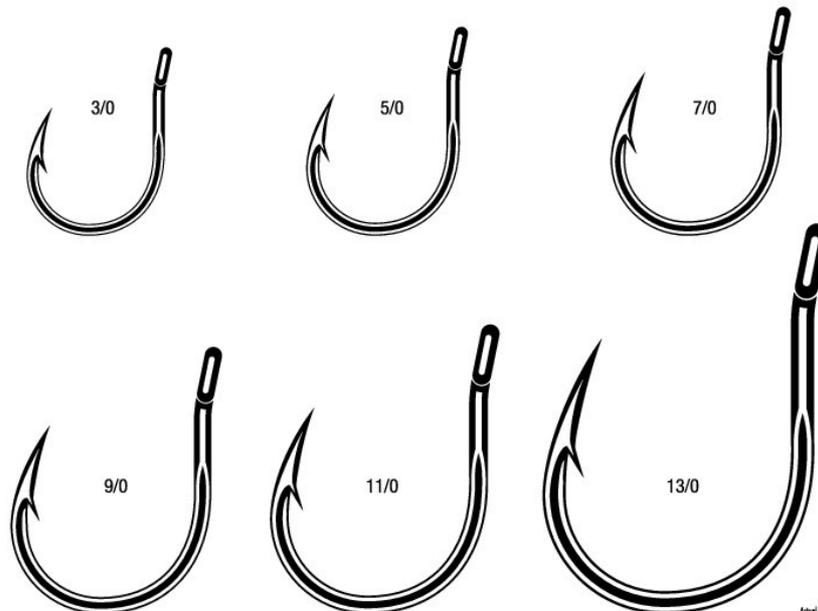

1264

JIGGING ASSIST HOOK

- K - Black Nickel

- 8° offset ring for easier rigging and better presentation
- Extra wide gap to fit all vertical metal jigs
- Chemically sharpened extra long and sharp needle point
- Micro-barb to allow better penetration and easy release

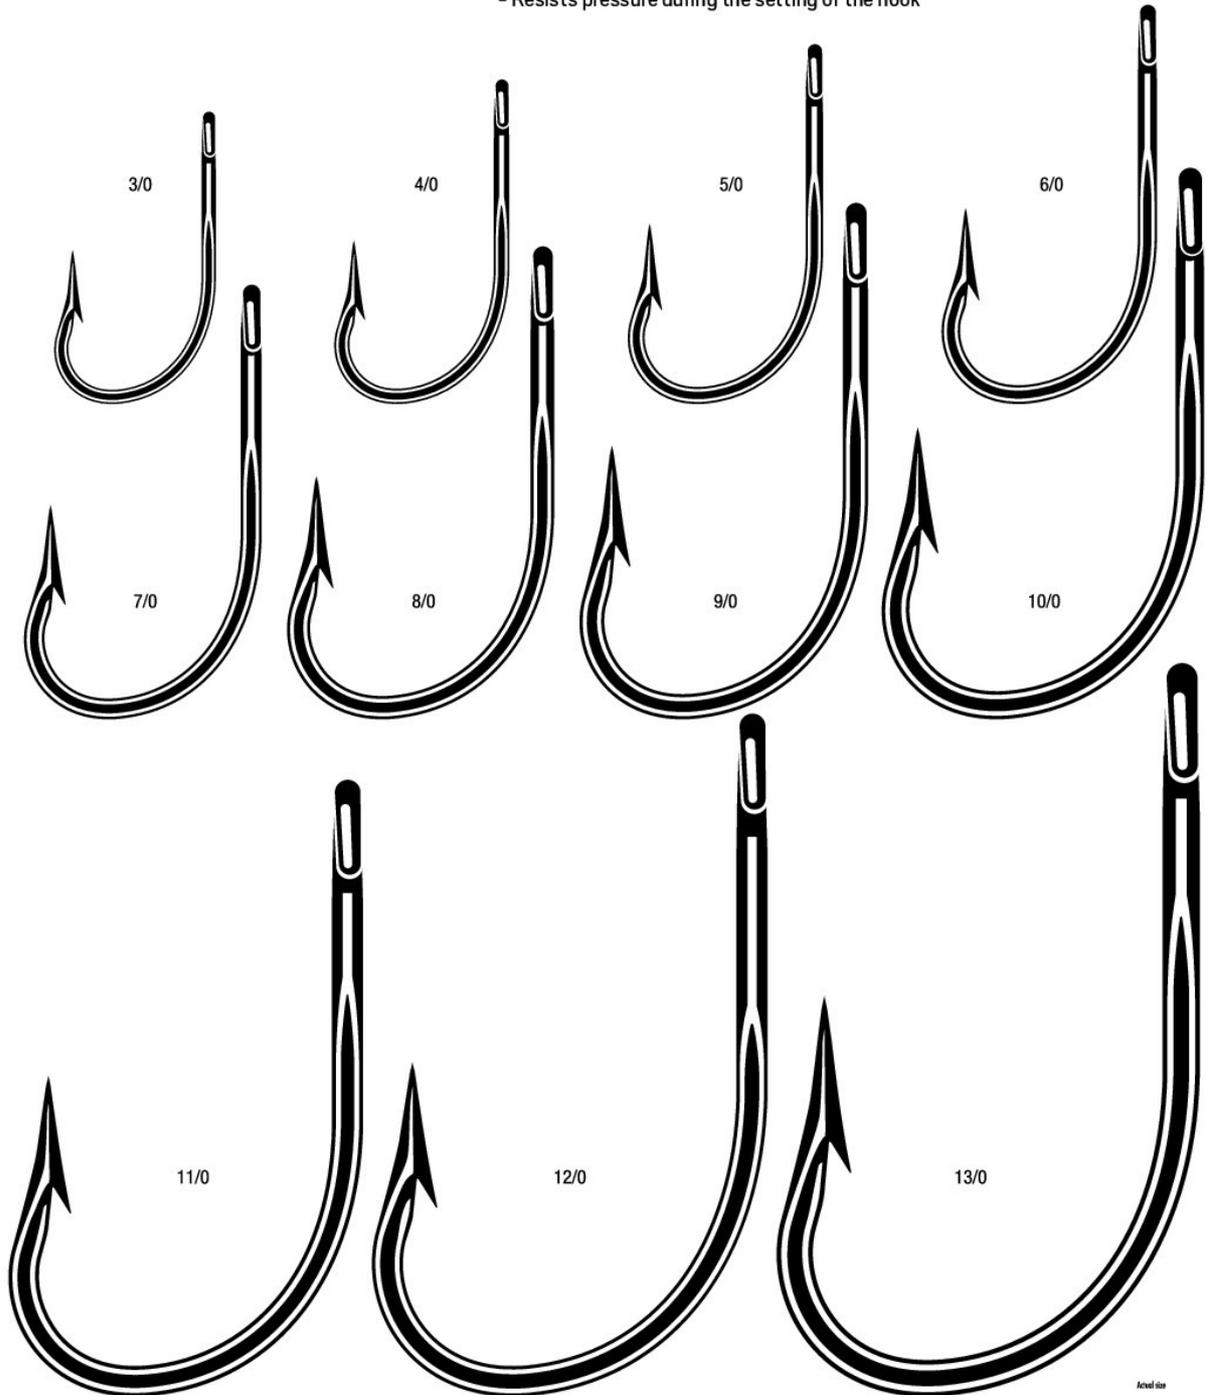

1705

BIG GAME HOOK - BAY KING

EB - Bright Tin

- Straight-point model
- Ready-to-fish, ultra-sharp Dynacut point
- Does not require additional sharpening
- Penetrates into the hardest part of the jaw of game fish
- Resists pressure during the setting of the hook
