# GLOBAL ROUND UP

It's not hard to tell that at Halco we love fishing. We do it a lot and we are inspired by creating great products. The design and creation of lures is not achieved by focus groups, nor surveys, it's generally driven by Tim and me out fishing and seeing an opportunity for a great new product for the Halco line up. Then I get busy in the design room and with input from the team a new product is born. But it doesn't end there, we then make it in our factory, test it, fine tune it and catch on it. Only then is it ready to go to market.

It's a fun and rewarding process, but often time consuming and frustrating. This year has seen the design and creation of the Slidog 125 and the Poltergeist 110, both variations of current products but both with their own set of challenges. There's more on the way too! Every time we go fishing – we get inspired.

See you on the water.

Ben Patrick  
Managing Director and owner

If you're into launching a lure over the horizon and looking for that bone jarring, nerve rattling strike as you rip it back - then look no further. The all new Halco Slidog will be just the ticket.

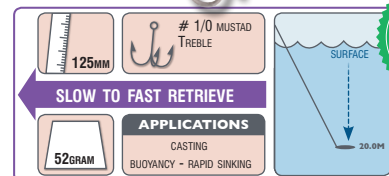

Halco has developed an ultra tough, sinking, sliding stickbait that is sure to give you a workout from all the GT's, XOS Mackerel, large Tuna and many others that try to take it home to their trophy cabinet.

Featuring heavily reinforced side walls, Halco's legendary ultra tough fish rings and Mustad inline singles, this Slidog comes with a bite that matches its bark.

# LASER PRO™

The latest in lure technology incorporating strength, durability and fish catching ability. The outer body has extra secure hook anchoring and towing points that are built in as an integral part of the lure body. Halco's Bulletproof bib securing system provides added strength and ensures faultless swimming performance at high and low speeds. Halco Laser Pro lures are precision built for maximum fish catching ability.

LASER PROS ARE NOT JUST ABOUT BLUEWATER. BARRAMUNDI LOVE THEM TOO - CHECK THIS OUT.

# UNIQUE

Halco Bulletproof Bibs are pretty tough (polycarbonate's used in bullet proof glass). Combined with our unique, glueless locking method, these bibs stay put. Glueing bibs is a quick fix we leave to our competitors - over time glue solvents can weaken plastic till it snaps. These lures work and keep working, with a bib that's locked in tight for a good fight. Bibs not sold separately.

ITS MOTTO IS :  
**IF YOU HIT A SNAG,  
GET OVER IT!**

The RMG Poltergeist 80 - The Northern Territory's favourite tournament winning, crash-diving, saltwater Barra trolling lure. With its legendary snag-busting ability, it turns an angler into an expert. Ask for it in any good tackle store.

The Laser Pro 120MT is a 2014 take on a classic lure design.

The latest MT lure version features multiple trebles making it a Mouth Trap for unsuspecting barramundi, mangrove jack and other vicious ambush predators.

The lure is designed for precision casting applications featuring sticky sharp, fine guage forged hooks for great hook sets while retaining superior holding ability.

Available in clear and fully painted finishes, the Laser Pro 120MT is taking you back to the future.

H84 MEDIUM RARE

The Halco C-Gar is a weighted stick bait, designed for use on the surface for species such as Australian Salmon, Tailor and Queenfish or alternatively sub surface for all tuna, mackerel and other predatory fish.

The lure action is less splashy than a popper however the unique nose and weighting ensures long casting ability with enough surface action to entice a strike from the wary fish looking for an easy meal.

Featuring heavy duty Mustad trebles and Halco's famously strong fish rings for the ultimate lure to hook connection, the C-Gar is built like all other Halco products, to catch fish day in, day out without fuss and bother.

C-GAR™

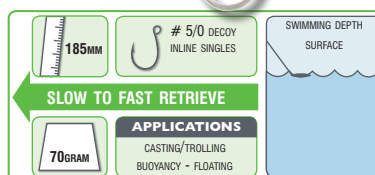

The Skim Stick is a totally unique and innovative design concept for blue water anglers.

A hybrid between stick bait and skittering popper, the Skim Stick imitates a long, narrow profiled baitfish fleeing on the surface from any hungry predators in the area.

It is intended for casting and slow trolling situations and features Halco's new clear polymer technology with internal holographics and scales in some colours while other more traditional finishes are also available in the range.

For the first time, Decoy 5/0 inline single hooks come as standard fare to make the handling active fish less of a risky proposition while giving superior hook setting and holding ability.

Halco Tremblers are virtually indestructible bibless minnows that can be cast, jigged or trolled for outstanding results on a wide variety of sportfish. Advanced design features of the Tremblers include nose weighting producing an extremely lifelike swimming action. Tremblers have the loudest noise and strongest body vibrations of all Halco lures. Hook anchors and towing points made from stainless steel are an integral part of the lure body so they will not pull out.

# TAKE THE FAMILY FISHING

Max 110  
Troll up to 20 kt

Max 130  
Troll up to 14 kt

Max 190  
Troll up to 20 kt

Max 220  
Troll up to 20 kt

Halco is a multi-generational family operated lure manufacturer, so it's hardly surprising that they design and build products along family lines as well. The Max family of bibless minnows share the same award winning DNA to display consistent qualities across the range. Each member is designed to troll perfectly at speeds up to 14-20Kts, alternatively cast and retrieve subsurface or from the depths for instant action. Attributes they share include Halco's legendary toughness and iconic Fish Rings while the chrome variants share the ingenious "designed to bleed" coatings. Halco's Max 130 and 110 feature Mustad trebles while the Max 190 and 220 come fully loaded with Mustad in-line singles so you can fight the fish of a lifetime with confidence. The Max family grows larger and more diverse with each generation, so next time you're browsing in your favourite tackle store, stop by and meet the family.

**MAX  
FAMILY**

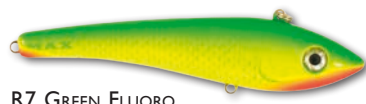

@halcotackle  
halcotackle.com.au

This cutting edge minnow can do the lot, be it jigging, casting or trolling. Max has a highly streamlined design, that gives the lure unbeatable casting ability, while allowing high trolling speeds with minimal resistance. The slender tail section is designed for maximum hook exposure on the strike. Max represents the lure of the future. It goes without saying that Max incorporates Halco's legendary toughness and durability that keep Halco ahead of the rest.

# ROOSTA POPPER™

The Halco Roosta is on the cutting edge of modern popper design with significant new innovations that improve the action and stability of this spectacular surface lure. The head design which is wide at the top transfers to a widened tail end. This unique design creates a popper that is ideal for a straight fast retrieve or a stop and start bloop with exceptional splash. The design minimises cartwheeling and the rattle ensures significant noise coupled with the water spraying action.

# HAMMA™

The Halco Hamma is the new frontier of lure technology. It is a clear-bodied, controlled rise casting lure supplied with multiple, easily changeable bibs of varying depths. It gives maximum flexibility in one easy package. Hamma is destined to nail its competition and turn the lure fishing world on its head. The Hamma was designed from the ground up, to tackle some of the world's toughest and most iconic sportfish like Barramundi, Black Bass, Mangrove Jack, Tigerfish and Tarpon.

It has an incredibly realistic baitfish profile, and also features a specially designed weight transfer system for great casting ability, super sharp and strong Mustad trebles for maximum holding potential when using today's modern braided line technology, and Halco's famous heavy duty fish rings. In the water the Hamma has marvellously enticing, tight swimming action with a subtle phase shift mid-cycle that can be used to easily mimic a wounded bait fish.

DD 3 METRE-

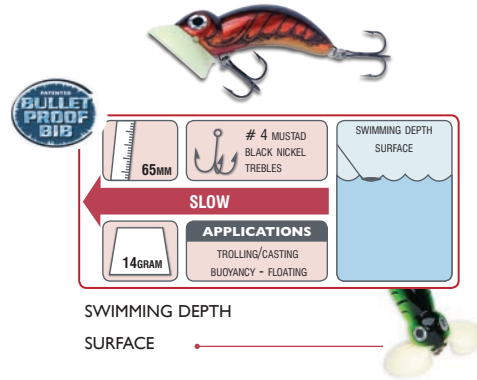

# NIGHTWALKER™

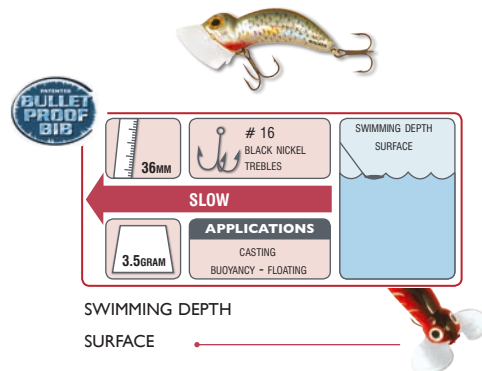

A surface crawling creature that "walks" across the surface similar to a frog or distressed rodent. Rear weighted for easy casting. Vary the retrieve speed to create a wide wobble and unique sound. Ideal for evening and night fishing, featuring a "luminous" bib with Halco's Bulletproof Bib securing system.

## NIGHT WALKER™

A smaller version of the highly successful Night Walker, the Night Walker Nano is designed to tempt fussy, finesse feeders such as trout and bass. The Nano starts its highly addictive surface walking action as soon as tension on the tow point is applied, so be ready on splashdown for instant action.

# WHIPTAIL JIG™ / SMITH'S JIG™

## WHIPTAIL JIG™

Tested from the barramundi rivers of Northern Australia to the crystal clear tributaries of the Amazon, the Halco Whiptail is a jig with a difference. It has a number of features that make it stand out from the rest, including Mustad Needle Point chemically sharpened hooks and an ingenious rattle system that helps attract fish in dirty water. All this plus a separately tied tail that pulsates in the water make a jig that drive fish wild.

### WHIPTAIL JIG 10g™

LENGTH	175mm
WEIGHT	10 gram
HOOKS	3/0 MUSTAD NEEDLE POINT
APPLICATIONS	JIGGING/CASTING/TROLLING
BUOYANCY	SINKING
FEATURES	SONIC RATTLE

### WHIPTAIL JIG 60g™

LENGTH	210mm
WEIGHT	60 gram
HOOKS	7/0 & 3/0 MUSTAD
APPLICATIONS	JIGGING/CASTING/TROLLING
BUOYANCY	FAST SINKING
FEATURES	SONIC RATTLE

## OUTCAST JIG™

SIZES 40g 60g 80g

Following on from outstanding results while bottom fishing, Halco are now offering several of the Outcast range with a jigging hook option. Featuring two Decoy JS-3 jigging hooks, quality squid skirts all tied on US made Kevlar fibre these lures are built for serious micro jigging applications.

Available in 40, 60 and 80g sizes the Outcast Jigs are available in white with blue skirt, redhead with blue skirt, blue with pink skirt, green with pink skirt and gold with pink skirt.

## TWISTY JIGS®

SIZES 55g 70g 95g 120g

Twisty Jigs are ready to fish, just tie one on.  
Rigged with the finest quality components for maximum durability.

# METAL LURES

## OUTCAST™

SIZES 20g 40g 60g 80g

All sizes are available in gold, blue, green, white and redhead.

REVISED COLOUR

The all new Halco Outcast is a rear weighted baitfish profiled casting metal, designed to catch a wide range of species from high speed pelagics to more temperate options such as tailor, salmon and mullet. Its wider swimming action is highly appealing to all ocean and estuary dwelling predators and has all the fantastic features you have come to expect from Halco, such as their famous heavy duty "Fish Rings" and high quality Mustad hooks. The smooth, highly streamlined shape means the lure will cast a country mile even into strong headwinds and is available in 20, 40, 60 and 80g weights. The Outcast comes in 6 great colours and is a must have tool in any serious fisher's tackle box.

## HALCO TWISTY CHROME®

SIZES 1.5g 3g 5g 10g 15g 20g 30g 40g 55g 70g

The curved ends of the famous Twisty create an enticing action like no other metal lure. From a slow wobbling retrieve to a high speed splashing retrieve this lure is truly versatile. All lures are available in Chrome with either silver, red or green holographic sparkle.

Above - The famous curved ends of the Twisty lure.

## HALCO TWISTY GOLD®

SIZES 1.5g 3g 5g 10g 15g 20g 30g 40g 55g 70g

The curved ends of the famous Twisty create an enticing action like no other metal lure. From a slow wobbling retrieve to a high speed splashing retrieve this lure is truly versatile.

Above - The famous curved ends of the Twisty lure.

## HALCO SLICED OR SLICED SPARKLER™

SIZES 5g 10g 15g 20g 30g 40g 50g 70g 85g SLICED  
SIZES 5g 10g 20g 30g 50g 70g SLICED SPARKLER

This straight running chrome lure has extra large sides for extra flash. The standard Sliced comes with a blood red teaser attached to the rear fish ring with two highly reflective chrome surfaces. The Sliced Sparkler has a holographic sparkle finish on one face of the lure giving a multi directional flash when seen from below the surface.

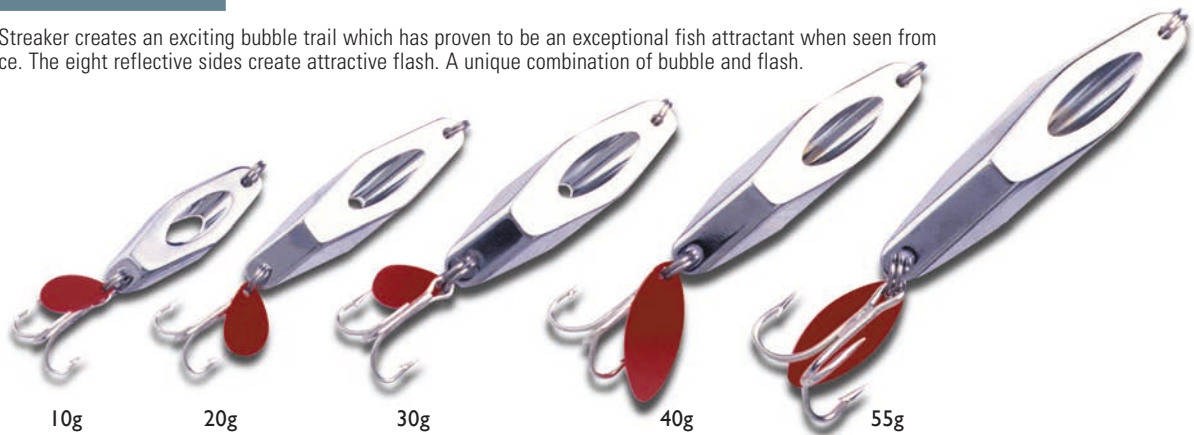

# METAL LURES

## HALCO STREAKER™

SIZES 10g 20g 30g 40g 55g

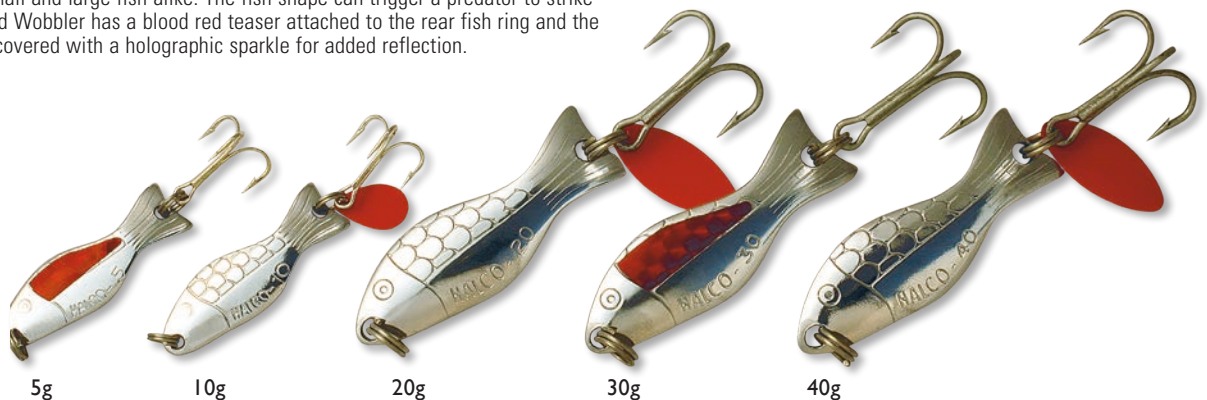

The hole in the Streaker creates an exciting bubble trail which has proven to be an exceptional fish attractant when seen from below the surface. The eight reflective sides create attractive flash. A unique combination of bubble and flash.

## HALCO WOBBLER OR WOBBLER SPARKLER™

SIZES 5g 10g 20g 30g 40g

This well proven lure has plenty of applications. Its shape is ideal for slower retrieves as well as jigging for small and large fish alike. The fish shape can trigger a predator to strike the lure. The standard Wobbler has a blood red teaser attached to the rear fish ring and the Wobbler Sparkler is covered with a holographic sparkle for added reflection.

## HALCO KIMBERLEY™

SIZES

3 inch - 76mm	4 inch - 100mm
5 inch - 127mm	6 inch - 152mm

A super strong spoon made from marine grade stainless steel. The eight reflective surfaces ensure the strong flashes attract fish lurking down deep.

## HALCO BARRA OR BARRA SPARKLER™

SIZES

3 inch - 76mm	4 inch - 100mm
5 inch - 127mm	6 inch - 152mm

The preferred lure of professionals, the Barra spoon is made from marine grade stainless steel. Its lively action makes it ideal for pelagic species.

Reflecta Colours Red, Blue or Chartreuse

[illegible]

RST is up to five times more durable than standard plastic, and is also buoyant, enabling the lure to float and wriggle when sitting on the bottom.

- Freshwater

## Halco Reflecta Tape 150mm (150mm x 100mm - 10 sheets per packet)

Reflecta tape is brightly coloured, adhesive-backed holographic film.

# TOOLS & CLOTHING

## Halco Fish Ring Pliers

At Halco we put millions of fish rings on its products every year. It goes without saying we need easy to use pliers, that don't stretch the ring when applying it to the lure or when changing out a treble.

This truly unique and patented design has been developed and refined by Halco Tackle to give optimal performance and long lasting service as they do here in the factory.

They are used in the factory for all our products, from our tiny #2 fish rings right through to the large #7xx (95kg) fish rings. The fish ring pliers are also fine to use on any other commercially available split rings in the market.

Made out of hardened tool steel, the useful life of the product outdoors will be extended by rinsing in fresh water if it has been immersed in salt water and applying a light coating of spray oil to the steel parts.

For information on how these pliers work visit the "Halco Tackle" YouTube Channel for a short clip on how they work so well.

## Halco Tournament Shirts

Halco's striking new tournament shirts are ideal for long, hot days out on the water. Worn by Ben, Neil and Tim, these shirts offer the best combination of wearability and fishing fashion. They are long sleeved and Australian made featuring material that stays cool even in the hottest of conditions, dries quickly and offers an SPF 50+ sun protection rating.

SIZE	S	M	L	XL	XXL
------	---	---	---	----	-----

## Halco Caps - One size fits all.

Proudly worn by many of Australia's finest anglers, Halco now makes its caps available for purchase to its supporters. Available in bright red and classic navy, Halco caps feature an embroidery Halco logo at the front with side panel embroideries of yellowfin tuna on the left and giant trevally on the right. The cap also uses custom Halco Tackle piping on the visor with alternating trevally and yellowfin tuna accents woven into the headband. These one size fits all caps are adjustable via a soft Velcro closure at the back and offer great protection from the glare encountered in many fishing conditions.

# TILSAN TIMBER LURES

## TILSAN BIG BARRA

The Big Barra is the new dimension in timber lures. This suits trolling deep for big predators as well as being a perfectly weighted cast and retrieve lure. With an action that starts with the smallest twitch of the rod tip and near neutral buoyancy, the Big Barra is the ideal lure to twitch around snags and structure when a large profile lure is required.

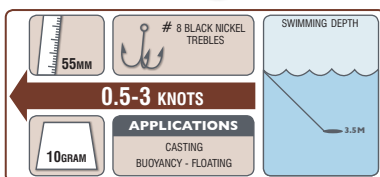

## TILSAN BARRA

The Tilsan Barra is the most versatile timber lure ever made. From dead slow twitch retrieve in the snags, to a super fast troll out wide, the Tilsan Barra Lure can handle it all. With its centreline design stainless steel frame and Tilsan's unsurpassed quality, the Tilsan Barra is a must-have in every serious fisherman's tackle box. If you're after a lure that does the lot - you can't go past the Tilsan Barra.

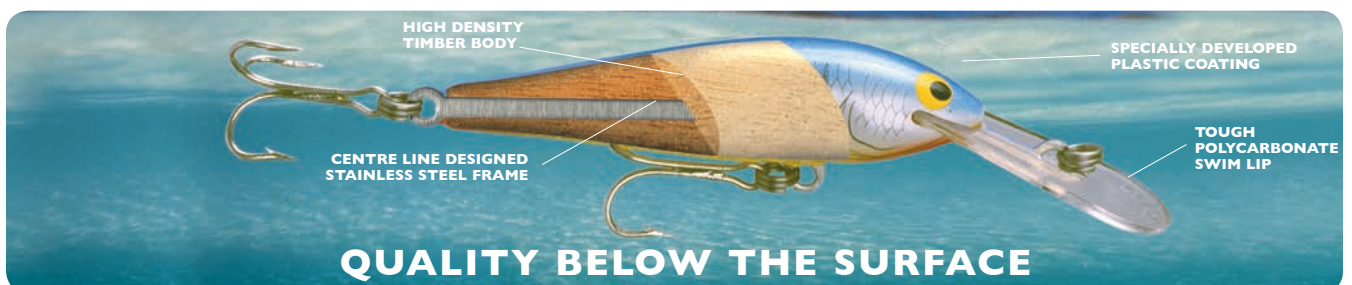

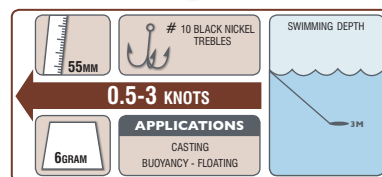

## TILSAN BASS

The Tilsan Bass is one of the fastest diving lures around. Reaching a depth of 3.5metres in an average cast, makes it an excellent lure for fishing deep-water snags and fast drop-offs. With its centreline design framing system, you are assured of landing that deep water monster.

## TILSAN MINNOW

The Tilsan Minnow was one of the first Tilsan lures on the market. Its success as a high performance fish catching tool has enabled Tilsan to produce the world's greatest timber fishing lures. With a natural baitfish profile and near lifelike decoration, the Tilsan Minnow is at the forefront of lure technology in the world today. Built around Tilsan's famous centreline design framing system, it's an incredibly strong and versatile lure for its size.
